

EX 3855

C E R T I F I C A T E

In 1933 the VIIth sheet of the map of the Asiatic part of the U.S.S.R. (scale 1" = 100 versts) was republished.

The state border line between the Mongolian People's Republic and Manchuria in the Lake Buir-Nur area was erroneously marked on this sheet not to the east of the Khalkin-gol river as it should have been done but on the river itself.

The following Japanese maps were used during the drawing of the state border line between the Mongolian People's Republic and Manchuria:

1. The map of Manchuria, Chahar and Outer Mongolia published in 1933 by military authorities of Manchoukuo.
Scale: 1:500000. (Supplement N 1)

2. The Map of Manchuria, North China and Korea published in 1931 by Cartography Department.
Scale: 1:2,500,000 (Supplement N 2)

After the VIIth sheet had been republished the error in the state border line between Mongolian People's Republic and Manchuria was discovered on this sheet, and measures were taken to study cartographic materials available in the archives, geographical atlases of various countries and documentary materials of the Mongolian People's Republic Government relating to the Lake Buir-Nur area.

These materials corroborated that the state border between Mongolian People's Republic and Manchuria as shown on the VIIth sheet of the map (scale 1" = 100 versts) is wrong and therefore afterwards when maps of any scales were published the border between the Mongolian People's Republic and Manchuria was marked to the east of the Khalkin-gol river, that is where it actually passes in the area.

This is corroborated by the attached sheets and maps:

1. VIIth sheet of the map with the scale 1" = 40 versts (Blagovestchensk, Tsitsihar) published in 1935 by the Red Army Military Topographic Department. (Supplement N 3)

2. Sheet L-50-B published in 1936 by the Red Army Military Topographic Department. Scale: 1:500,000. (Supplement N 4)

3. Sheet L-50-III, eastern part, published in 1936 by the Red Army Military Topographic Department. Scale: 1:200,000 (Supplement N 5)

EX 3855

The attached photostat-copies of maps taken from the Central Archives of the Military Topographic Department and from geographical atlases of various countries also corroborate that the state border between the Mongolian People's Republic and Manchuria runs not on the Khalkhing-gol river, but to the east of it:

- 1). Geographical map of Heilunghiang,
Scale: 1:2,000,000 (Supplement N 6)
- 2). Training map of the Mongolian People's
Republic published in Leipzig,
Scale: 1:2,000,000 (Supplement N 7)
- 3). The map of the Mongolian People's
Republic published in Shanghai (Supplement N 8)
- 4). The Map of China (The Handy Royal Atlas of
Modern Geography. Johnston. p.p. 62-63. Published in
London, in 1927) (Supplement N 9)
- 5). The Map of Eastern Siberia. (Stieler's Hand-Atlas.
Justus Perthes. 1905. Gotha, p. 58) (Supplement N 10)
- 6). The Map of China (New Handy General Atlas.
George Philip. London, 1930. p.p. 123-124)
(Supplement N 11)
- 7). The Map of China and Japan. (World Atlas.
Rand McNally & Company. New York, 1932-1933, p.p. 152-153)
(Supplement N 12)
- 8). The Map of China and Japan (The Times Handy Atlas.
John Bartholomew, London, 1935, p.p. 64-65) (Supplement N 13)
- 9). The Map of China and Japan (The Citizen's Atlas of
the World. Bartholomew, London, 1935. p.p. 112-113) (Supplement N 14)
- 10). The Map entitled: "Asia, the states and a survey
of the means of communication". (Columbus Weltatlas. Paul
Oestergerd, Berlin, 1937, p.p. 47-48) (Supplement N 15)
- 11). The Map of East Asia. (Cappelens Verdens Atlas.
Cappelens, Oslo, 1937. p. 33 (II).) (Supplement N 16)

Enclosures: The above-mentioned on 37 sheets.

(Signed): Gerasimov,
Major-General of
Technical Corps,
Acting Chief of the
Military Topographic
Department of the U.S.S.R.
Armed Forces General Staff.

Colonel Martyanov,
Chief of the 2nd Section

September 17, 1947.
